

## Symphonic band rehearsal attendance policy

- Rehearsals and performances are both graded assignments in accordance with the FBHS Band Class Grading Standards.
  - Rehearsals can be made up by submitting a Flipgrid recording of all music for the upcoming concert, the **same day as the rehearsal**, and by **having written notes of what occurred during that rehearsal**.
  - Performances may be made up by an 8 page research paper related to the composers and pieces being performed on the concert, **due within 5 days of the concert**.
- You must physically be at 50% of rehearsal time, and made up a total of 90% of rehearsals in order to perform on the upcoming concert.
- If a student misses less than half of a rehearsal, they do not need to do the Flipgrid assignment, but still **should get notes on what was changed while they were gone**, in order to make up the grade.
- It is expected that you are at rehearsal, unless you have a conflicting FBHS activity or illness.
  - Failure to comply may result in your removal from after school symphonic band, which will negatively impact your in school grade.
- Students participating in other FBHS activities must still comply with all the above policies, but some leniency may be shown for games.
